

The Paris Morning News

PARIS, TEXAS, SUNDAY, JULY 19, 1917.

NO. 80

TO PROVIDE MEANS FOR LITTLE FELLOW TO PURCHASE BONDS

Washington, Aug. 18.—Authority to issue bonds and certificates totaling \$11,538,945,460 at one time is provided in the new war budget bill embodying the recommendations of Secretary McAdoo, which came from the printer today to the House Ways and Means Committee. In addition to authority to float \$7,538,945,460 four percent bonds, to care for the previous three billion and a future four billion dollars allied loan, it authorizes the secretary to issue additional certificates of indebtedness to the amount of two billions of dollars and an equal amount of War Savings certificates in a form available to small investors.

In the War Savings certificates proposed by administration leaders they think they have discovered the means of appealing to the patriotism of the man of small resources. The purchaser would be limited to \$100 worth at one time and no individual would be permitted to own over \$1000 worth of them.

HOG PRICES REACH HIGH MARK OF \$19

Chicago, Aug. 18.—Hogs which sold August 10 at \$17 a hundredweight; Aug. 15 at \$18, today brought \$19. Receipts of 6000 had been expected; 2500 arrived.

The British government is said to have asked packers to offer ham and bacon freely for September shipment. The packers have responded with quotations based on hogs at \$20 a hundredweight.

CANADIAN MUNITIONS PLANT IN RUINS

Rigaud, Quebec, Aug. 18.—The great plant here of Curtis & Harvey, Ltd., explosive manufacturers, was wrecked today by a series of terrific explosions and buried beneath the ruins of a dozen or so structures that comprised the factory, are an unknown number of dead.

Several thousand male and female workers employed at the plant were in the danger zone for hours. An early estimate based on first reports placed the number of killed at about 250, but indications were this afternoon that there were comparatively few casualties.

A relief train arrived from Montreal at noon bringing doctors and nurses, but owing to the fierce heat from the burning ruins of the plant they were unable to approach.

The loss in value of buildings and stock will reach well up into millions.

The explosion was caused by the overheating of the machinery in the nitric acid building. The flames leaped along through the buildings and explosions occurred. Most of the workers, however, are believed to have had ample time to escape.

Other explosions occurred every five minutes in the surrounding district, shaking the district like a series of earthquakes. Altogether 150 detonations were counted. One of the explosions blew down a number of houses in Dragon, where the workers lived, and farm houses in the vicinity also caught fire. Provision was made by the people of Rigaud for accommodation of the homeless workers.

Late Estimate of Dead
Montreal, Quebec, Aug. 18.—Reports from Rigaud, Quebec, late today, estimate the dead in the Curtis & Harvey powder works explosion at from 170 to 250 persons. Search of the ruins for bodies was not possible yet as the shattered remnants of the buildings are still burning.

THE WEATHER
• East Texas—Sunday partly cloudy, probably showers in extreme eastern portion. Monday, probably cloudy.

LARGE BONDS FIXED FOR LEADERS IN OKLAHOMA RIOTS

McAlester, Okla., Aug. 18.—Seventy-three alleged anti-draft rioters from Seminole county were held for the grand jury in bonds aggregating nearly half a million dollars at the completion of their preliminary hearings before U. S. Commissioner R. P. McMillen here late today. Twenty-seven prisoners were liberated by the court but were held in \$10,000 bonds as witnesses.

The hearing was completed at noon after Will Hobler, the government's chief witness, had told in detail of the alleged activity of the leaders of the Working Class Union in Seminole county.

H. C. Spence, alleged organizer of the Working Class Union, Hobler testified, advised his fellow members that they could "beat the army draft with matches."

What Lincoln Said.
"Abraham Lincoln said that the most dangerous weapon in the world was a match and there are still plenty of matches left," Hobler swore. Spence held told the men. Hobler testified that one of the leaders told how dynamite, arms and ammunition could be purchased and that Bill Benefield, on Aug. 2, attempted to blow up the Frisco railway bridge at Saskwa.

The smallest bond was \$5,000. H. C. Spence's bond was put at \$15,000; Spurgeon Estes, Ray Crane and H. W. Benefield, \$10,000 each; seven others were put on \$7500 bond each and the remainder \$5000 each. The bonds totaled \$435,000.

URGE PEOPLE OF NATION TO SUPPORT ARMY

Paris, Aug. 18.—Major General Pershing, the American commander, told the Associated Press today that the war can be won only by hard and forceful blows delivered by a well trained American army working in conjunction with the allied armies.

Deploing the lukewarmness of the American people in regard to the war, General Pershing added:

"Every man, woman and child should support the administration in its determination to arm and equip the American army and to keep up its morale and that of the allied armies. This war will not be won by talk or by subscribing to the Red Cross. The American people must come to a full realization of what the war means. It can be won only by striking hard and forceful blows, not otherwise."

PINK BOLL WORM NOT FOUND IN TEXAS

Washington, Aug. 18.—Investigations by Department of Agriculture experts have established the fact that the pink boll worm has not entered Texas, it was announced officially tonight. The pink boll worm is much more harmful to cotton than the ordinary worm and fears that it would be introduced into Texas from Mexico were felt.

SPANISH OFFICERS TO GUARANTEE RIGHT OF HOSPITAL SHIPS

Madrid, Aug. 18.—The German military attaché has handed to the Spanish government Emperor William's acceptance of conditions under which hospital ships are to be protected from attacks by submarines. Seven Spanish officers have gone to France to act as commissioners on board the hospital ships. Under the arrangement a neutral commissioner will be carried on each hospital ship to guarantee that it transports only sick and wounded.

THOSE CANADIANS CAN'T BE STOPPED FROM TAKING LENS

Crown Prince Rupprecht of Bavaria continues to deliver counter attacks against the new positions captured by the Canadians in their recent offensive in the region of Lens. Saturday morning the Germans forced their way into the Canadian trenches northwest of the French mining center but after hand-to-hand fighting were rejected, leaving a considerable number of dead on the battlefield.

French Go Forward
On the Belgian front from the North Sea to Ypres sector, where the British and French, in an offensive begun the middle of the week have taken 1800 prisoners and 24 guns, the French again pushed forward and captured strong German points of support east of the Steenbeke river. The British are organizing their newly conquered territory and artillery bombing on the front has again assumed a degree of intensity presaging another blow at the German lines.

Berlin Admits Loss
The Berlin war office now admits the loss after severe fighting of the Belgian village of Langmarch, north-east of Ypres.

On the Aisne front the German crown prince has directed a number of attacks on the French trenches, of attacks in the vicinity of Froidefont farm but all were repulsed. Preparations for a German assault in the Champagne region were broken up by French fire. On the Verdun front a spirited French attack swept over the German positions in Caurettes wood, enabling the French to retake all the territory wrested from them by the Germans August 16 and 17.

Aviators Active
The aviators of the belligerents on the west front were unusually active as the week closed. French aviators shot down seven German planes and forced eight to land badly damaged.

The night of Aug. 17-18 French aviation squads dropped fourteen tons of explosives on German aviation grounds, railway stations and military encampments. British airmen destroyed twenty-three Teuton airplanes and forced thirteen to land. Eleven British and two French planes, according to British and French reports, failed to return.

The Eastern Front
On the eastern front the military activity is largely confined to the Rumanian front. In southwest Moldavia Austrian forces attacked the Rumanian and Russian troops and took 1600 prisoners. In the last month, according to German general headquarters, the Austro-Germans in Galacia and Rumania have captured 42,000 officers and men, 257 guns, 548 machine guns, 50,000 rifles and a large quantity of war materials.

Fighting again broke out in the Caucasus, both the Russians and Turks taking the offensive on sectors 300 miles apart. The Russians in the region of Kharput are attacking for the first time since the revolution on the Caucasus front, occupied several of the Turkish villages.

RED SOX LOSE FIRST PLACE; INDIANS DID IT

Cleveland, Ohio, Aug. 18.—The Indians pulled the Boston Red Sox out of first place in the American League race this afternoon by winning the first game of a double-header, 2 to 1. The game was won in the ninth inning.

SADDLERY AND HARNESS FIRMS FACING CHARGE

Washington, Aug. 18.—Charging conspiracy to suppress competition, the Federal Trade Commission today filed complaint against the Wholesale Saddlery Association and the National Harness Makers' Association. The two have a membership of 159 firms.

GOVERNOR TELLS HIS VERSION OF COLLEGE LOCATION

Austin, Aug. 18.—The West Texas A. & M. College location matter came up again at this afternoon's hearing of the charges preferred by Speaker Fuller of the Texas House of Representatives against Governor James E. Ferguson which are being aired before the House, sitting as a committee of the whole in the proceedings looking to impeachment of the chief executive.

The governor testified that he saw the word "Abilene" on the second ballot cast by Speaker Fuller at the location meeting, June 29.

Mr. Fuller, when on the stand, testified positively that he did not vote for Abilene on the second ballot and the poll of the ballot which then gave Abilene three votes was incorrect and the subsequent vote, which made Abilene the unanimous choice, was thereby mistakenly obtained. The governor said he did not see Fuller write Abilene on the ballot but when they were dropped in the hat which was passed by Secretary Thomasson, he saw that the word was then on it.

Quotes Fuller.
He said that Fuller, prior to the location meeting, told him that if two votes which Bruce Bryant of Haskell told him were for Haskell failed to materialize, he (Fuller) would vote for Abilene.

"You voted for Abilene! You know you did, and you ought to come out like a man and say so," the governor said.

He said that Fuller replied, "I know that I voted for Abilene as I promised you I would do, but do not force me to say that, as it would ruin me."

"I told him he was ruined already," the governor said.

The witness denied what Fuller had said that he had ever suggested he would support Fuller for Congress if the speaker would help locate the college at Abilene. He said that after Fuller signed the statement that the choice of Abilene was fair he promised the governor he would not issue a call for a special session of the House to consider charges of impeachment without first informing the governor.

"Notwithstanding this, he did that very thing," exclaimed the governor.

University Matter
Most of today's testimony, all of which was by the governor, was directed to the University matter. Gov. Ferguson denied that he forced regents from office because they refused to do his bidding and stated there was corruption at the University. He said he wanted to let Dr. Vinson go as the president because he did not consider him competent to administer the affairs and that his understanding was that Dr. Vinson was only elected for a time and would be replaced by Dr. Battle after he (Ferguson) retired from the governor's office. He also went into a long explanation of the fraternities and their activities which he considered harmful to the best interests of the University.

DUTCH GET TWO GERMAN AIRPLANES

The Hague, Aug. 18.—Two German airplanes, each with crews of three men, landed near Winschoten late today. One was in flames and the other was shot down by Dutch soldiers. The occupants were uninjured.

LIGHTNING STRIKES TANK; BIG OIL FIRE

Ardmore, Ok., Aug. 18.—A fifty-five-thousand barrel oil tank of the Magnolia company farm in section Four, near the town of Wirt, was struck by lightning last night and the resulting fire will cause a loss estimated at \$90,000. The electrical storm was accompanied by a heavy rain general over the Healdton field.

EFFORT MADE TO WRECK SAN DIEGO'S WATER SYSTEM

San Diego, Cal., Aug. 18.—More than twenty feet of the forty-inch water main connecting the San Diego city water impounding system with the distributing system was blown out by an explosion at 11 o'clock last night, according to announcement shortly before noon today by City Manager F. M. Lockwood. That a deliberate effort was made to cripple the San Diego water supply system was the announced belief of Manager Lockwood, who said that shortly after the explosion two men were seen running from the scene.

PRESIDENT WILSON CONSULTS HOOVER

Washington, Aug. 18.—President Wilson went to the food administration offices today for a personal conference with Herbert Hoover and later went to the federal trade commission. It was believed the president discussed the coal situation and the extent to which he would assume the powers to control distribution vested in him by the food bill.

Under the law the president may fix the price of coal, operate the mines or commandeer stocks and sell to the public. Some decision of which course he will pursue is expected as the result of today's conferences, which were based on the federal trade commission's now completed report on the coal situation.

At the federal trade commission the president went over the figures gathered on costs of producing coal. The trend of the commission's report on the subject was to urge the president to take over the supply and its distribution.

The president's intention, it was learned authoritatively, is to reduce the prices not only at the mines but of jobbers and retailers. The Trade Commission's report indicates that operators can sell their bituminous at a price far below the maximum of \$3, fixed at a recent conference between mine managers and government officials, and still make a handsome profit.

The president will take some action in the coal situation early next week. He carried back to the white house from the Trade Commission a mass of statistics on coal production costs, and will go over them tomorrow. His decision probably will be announced Monday.

TOOK FIVE PITCHERS TO PUT OUT SIX MEN

Los Angeles, Cal., Aug. 18.—Forty-seven minutes was the time required by Vernon and Los Angeles to play the first inning in yesterday's game. Fans and ball players are of the opinion that it was the longest inning in the history of baseball.

BRYAN COMES OUT SQUARE AGAINST RESISTING DRAFT

Lincoln, Neb., Aug. 18.—No sympathy should be wasted on those arrested for unpatriotic utterances, W. J. Bryan declares in a signed editorial in today's issue of his paper, the Commoner. Resistance to the draft law was branded as anarchy by Bryan.

"Effore our nation enters a war, it is perfectly proper to discuss the wisdom of going to war, but the discussion is closed when Congress acts," the editorial said. "We must stand together and fight it through. There are only two sides to a war—every American must be on the side of the United States."

U. S. GUN CREW ON MERCHANT SHIP SUNK U-BOAT WITH BOMB

Fort Smith, Ark., Aug. 18.—A gun pointer in the United States navy now on duty on an armed merchantman, writing his mother here, describes thrilling adventure with German submarines in the war zone on a voyage over about the middle of July. On the ninth day out from America a submarine suddenly came up close beside the merchantman, too close for use of its deck gun or torpedo tubes. The naval gun crew also was unable to attack, but a member of the gun crew picked up a bomb and dropped on the submarine, causing an explosion which sank the enemy. The merchant ships were under convoy of the cruiser (name deleted) and on the day following the attack from both port and starboard simultaneously by submarines. The torpedoes passed astern of the cruiser and a salvo from both sides of the cruiser at the two submarines caused both to submerge.

COMBINATION TO STIFLE COMPETITION NEW CHARGE BROUGHT

Washington, Aug. 18.—A combination to stifle competition is charged against the Wholesale Saddlery Association of the United States and the National Harness Manufacturers' Association in a complaint filed today by the federal trade commission.

MISS RANKIN SAYS U. S. MAY TAKE CONTROL

Butte, Mont., Aug. 18.—The Government will take control of the copper mines of the Butte district and end for all time the labor troubles which have partially tied up the shafts, if the production of copper is interfered with so that the manufacture of munitions is delayed, Miss Jeanette Rankin, member of Congress, predicted here this afternoon.

OKLAHOMA BOARD GRANTS 4 RELEASES

Oklahoma City, Aug. 18.—As the first work of the District Appeal board of the Western District of Oklahoma, it granted four exemptions from army service out of 24 considered at today's meeting. All four were based on agricultural occupation.

U. S. ACCEPTS CUBA'S OFFER OF SITE FOR TRAINING CAMP

Washington, Aug. 18.—Cuba's offer to provide a mobilization and training ground for some American forces has been accepted. The number or description of the forces to be sent cannot be disclosed for military reasons.

WAR ACT IS USED TO STOP STRIKE

London, Aug. 18.—The munitions war act was applied this afternoon to a threatened strike of 40,000 railway engineers and firemen on English railways. This prohibits the walk-outs and requires submission of the railroad employees' eight-hour day demands to the labor minister.

WHEAT SHORTAGE FACES THE WORLD MR. HOOVER STATES

Washington, Aug. 18.—Declaring that the United States and her allies face a wheat shortage of 400,000,000 bushels unless new economies are initiated, Herbert C. Hoover to-night again appealed to the American public to eliminate waste of all sorts and conserve wheat by the substitution of other cereals for food.

"The Allies," said Mr. Hoover in his formal statement, "are isolated from the markets other than the Canadian and United States on which they were accustomed to rely before the war. The Russian supply cannot be gotten out of that country. The Bulgarian and Rumanian crops are in the hands of the Central empires. The voyage from Australia and India is three times as long and therefore requires three times as much tonnage as is required for shipments from North Atlantic ports."

"The indicated deficit of four hundred million bushels can be partly overcome if we can increase our exports from eighty-eight million bushels to two hundred and twenty million bushels."

POPE TO PROTEST AT ATROCITIES IN PALESTINE

Rome, Aug. 18.—The Pope has been informed of terrible conditions in Palestine, where the inhabitants are being starved and massacred by the Turks. It is reported the Vatican is preparing a solemn protest, the semi-official Correspondenza Bureau declares.

The bureau asserted the Pope had been informed the Turks had pillaged houses, killed men and carried women and girls to Constantinople, where they were forced into harems.

HIS RESIGNATION CARD SWALLOWED BY AN ELEPHANT

Chicago, Aug. 18.—A trained elephant may be arrested for interfering with the draft.

"Sure, I registered," George Colella of Seattle, his valet, told the police, "but the elephant swallowed my registration card."

The elephant trainer corroborated the story and Colella was released.

FOUR AUSTRIAN OFFICERS HELD AT LAREDO

Laredo, Tex., Aug. 18.—Four Austrian army officers, alleged to be accomplices of Captain Irving Schneider, recently arrested at San Francisco on a charge of being a spy, were arrested by department of justice agents here today and placed in jail. It is said they had come here from San Francisco and were en route to Mexico.

The federal agents declined to discuss the case.

RAISED HAND TO TAKE OATH, THEN THOUGHT OF WIFE

The Dallas Dispatch says a young man from Paris had a quarrel with his younger wife. He decided to sail the seas, and came to Dallas to join the navy. All his papers were made out and all went well until he raised his hand and Captain Ball started swearing him in. Then he wanted to go home to wife. Captain Ball laughed, told him he would have to stand all the expense of transportation and sent the prodigal hubby home.

Society And Club Notes...

The Debt We Owe

"We know that behind the fighting fronts in France are thousands and thousands of impoverished, miserable, helpless men, and women and children * * * In all the world's history there was never such massed misery * * * We are taking from the shoulders of an overburdened nation the task of helping these unfortunates."

"This is not charity. Don't let anybody get that idea for a moment. It is debt-paying. We owe all this and vastly more to the France that has poured out her blood for us. It is the least we can do while our armies of fighting men are getting ready to serve in the trenches. I trust I have made this point clear—that the big necessity of the present is to finance the Red Cross so liberally as to give it the chance to step into the gap and do a grand work of upbuilding and inspiring our Allies while our soldiers are being mobilized and trained."

So says Mr. Henry P. Davison, in an interview printed in Munsey's Magazine, in speaking of the enormous work undertaken by the American Red Cross overseas. Not only is the debt to France, but to all our Allies, from the mightiest to the weakest, for it is our fight as much as theirs, because we are fighting to make the world safe for democracy, and an abiding place for humanity.

The great mitigating force is the Red Cross: they need millions—millions of everything—of dollars for equipment, of nurses for their hospitals, of yards of cloth for bandages and clothing, and the willing hearts and hands of every American girl and woman to make those dressings and garments. And now they are pleading for knitted articles: socks, sweaters, wristlets and helmets; they even offer the materials for making them, if only there can be found enough women ready to finish them before another dull, horrible winter gets in. Without the extra warmth of these garments, our men and our Allies must undergo much needless privation and exposure, all for the lack of enough grit and determination on the part of American women. It cannot be: we have no right to sit idle and indifferent when we can do so much! Your work in the Red Cross is waiting for you; find out

what it is and do it today—today, and every succeeding day, until it is finished.

"Tenshun, Honor Guard!"

"The duties of the Girls' National Honor Guard shall be to inculcate the spirit of unity and learning to do one thing well, which shall prove of helpfulness and value both in durations of peace as well as times of war. Hence it shall be the duty of each girl of the Girls' National Honor Guard to maintain the honor of the country, the principles of the government of the United States, and the respect and honor of its flag."

When a girl pledges herself to do these things, or make herself liable to the forfeiture of her membership in the Honor Guard, if she really and fully appreciates the true meaning of it, and honestly strives to live up to her promise, she will find that it means far more than even the words themselves imply; learning to do one thing well impresses her with a sense of responsibility, and with the necessity of really learning that thing with a thoroughness that she has perhaps never applied to anything else; in maintaining the honor of the country, and its principles of government, she can scarcely keep from maintaining her own honor and self-respect; she will, perhaps, find herself taking a private inventory of her actions and behavior, as to whether they are of a sort to warrant the slightest untoward criticism of the Honor Guard, for, viewed from this angle, the honor involved is personal as well as national. Indeed, self-respect most naturally comes before respect for other things. No one yet has ever improved upon Shakespeare's immortal version of it, and it would be well for Guards-girls to remember:

"This above all,—to thine own self be true;
And it must follow, as the night the day,
Thou canst not then be false to any man."

Last of all, respect and honor of the flag means respect and honor and obedience to higher authorities, and loyalty and support to them at all times—the authority of every person placed in a position ever so slightly higher, from the parent, first of all, to the highest seat of the nation's government.

Compliment net, good Ubbign hrdy Complimentary to her sisters, Mmes Richard Webb and W. E. Ruple, and her niece, Miss Ruple, all of Los Angeles, Cal., Mrs. A. F. Hilliard very charmingly entertained five tables of guests at Forty-Two, on the afternoon of August the 10th. Jars of sunflowers, and tally-cards decorated in yellow, carried out a bright color-scheme. Fruit punch and wafers were served after the games.

Personal

Mrs. Marvin F. Truby of Independence, Kan., arrived yesterday to be the guest of her parents, Mr. and Mrs. Henry P. Mayer, on W. Kaufman St.

Miss Ruth DeWitt returned Saturday from Greenville, where she went to attend a dance given by Mrs. Glenn Coulson.

Mr. and Mrs. J. E. Mohr have returned from an extended trip to California.

Miss Moss Richardson, who was the guest of Mrs. D. B. Webster, left for Detroit on Wednesday morning.

Mrs. Garrow and daughter, Miss Anne Garrow, who have for some time been the guest of Mrs. Garrow's sister, Mrs. Ben Bailey, have left for Washington, D. C.

Men, our illustrated catalogue explains how we teach the barber trade in a few weeks, mailed free. Moler Barber College, Dallas, Texas.

Advance Showing of Fall Styles

Coat Suits, Dresses, Skirts and Blouses, Millinery, Silks and Ladies' Boots

Introducing Monday, early arrivals of the new season in ladies' ready-to-wear, we are pleased to announce our first showing, knowing that our customers will be eager to see and know what the fall styles have to offer and confident of their superior qualities in fabrics—authentic in styles, perfect in workmanship and too, at prices you will be glad to pay.

In times like these, it becomes doubly important to be certain of real value in buying wearing apparel. Good fabrics are scarce, a shortage in dyes, increased prices of all materials and advanced cost of labor—all have a tendency to a heavy increase in prices or inferior products. Reputable manufacturers have maintained the same high standards that have distinguished their lines in the past and have jealously guarded their reputation of quality—regardless of sacrifices.

It is from such manufacturers that we select our stocks. We buy strictly on a value basis—choosing only goods we know are right and offering nothing but definite dependability. Highly favorable connections of long standing places us in a position to furnish desirable merchandise at reasonable prices, regardless of conditions, and we enter the fall season determined to maintain our position—"The Store Ahead"—the store of quality and service.

Wooltex and Redfern Coat Suits

Georgette Waists

A new shipment of beautiful georgette crepe waists, for early fall, wear-handsome embroidered designs, the season's best styles in all the new shades, prices only

\$6.50 and \$7.50

New Fall Skirts

The new Chudda Skirts for fall are here, the newest styles wanted now, the Chudda every time for full satisfaction, and we have them now at no advance in prices

\$10, \$12.50, \$14.75

These two high grade lines need no introduction to the ladies of this section, dependable in every thread and to the last stitch—and you will be agreeably surprised at the new weaves presented—Broadcloth, Serges, Saeda Velours, Wool Velours, Burella Poplins and many new novelty weaves, in navy, taupe, burgundy, beet root, green and black. The new models are captivating and varied, the plain styles and dressier modes, many of them richly trimmed with furs, others in braids and buttons. First display Monday—we want you to see them—and you will be pleased. Price range—

\$19.75 to \$49.75

Beautiful Dresses

Our first showing of new fall dresses, the new ideas are charming, of handsome serge, taffeta and crepes—all shades of the new season and many models. Price range

\$12.75 to \$32.50

New Neckwear

A showing of pretty new neckwear on display Monday—the new pique collars for coats, also, handsome collars of georgette crepe, in the new styles and choice patterns, price range

50c to \$1.75

Ladies' New, Smart Boots for Fall

\$ 7.00
\$ 8.00
\$10.00

We have received a big shipment of ladies' new boots, the smart new models in all sizes and lasts—nobby blacks, black and white combinations and the smart new gray boots—turn soles, full Louis heels—the last word in classy footwear for fall. You will be interested in these new arrivals and we will be pleased to show you. A wide price range

\$ 7.00
\$ 8.00
\$10.00

Fall Silks Now

Silks are going strong with the fashions and were never more popular. Early shipments have arrived and our showing is now representative of the styles and patterns and beautiful indeed. We invite you to see the attractive line on display Monday.

Georgette crepes in black, white and all the new colors, yard \$2.00
Creme de chimes in every color, per yard, only \$1.50
Beautiful quality heavy black corded silks for coats, 40 inches wide, yard \$2.50

New Gingham

Our showing of new fall gingham offers best selections now, new patterns in light and dark colors. School sewing days are here and you will find desirable gingham of quality awaiting your selection Monday priced

15c per Yard

INTONETTE GAGE

Early Fall Millinery

The new fall hats are here—now ready and waiting for you. The very hat you are looking for is undoubtedly now on display here. Millinery for all occasions. From

Gage and Hyland

The new creations, of athletic design in rich colors and trimmings—expressing beauty, elegance and originality—exclusive patterns. New shipments arriving almost daily—come and make your selections early.

At Reasonable Prices

Novelty dress silks in the new fall stripes and plaids—the new patterns and new rich colors, yard \$2.00

HELP RED CROSS

The Red Cross is willing to send materials and call for the finished garments when necessary, but it earnestly requests those who can possibly do so to send to the headquarters, or call in person, for materials which they are willing to make up and then send the garments back. This will save the ladies much time, which they can use for other work. If, however, this is too inconvenient, telephone the headquarters and service will be given.

Church Notes

First Baptist church, tabernacle on South 22d street. Sunday school and preaching services at the usual hours. Everyone welcome.

There will be an open air service on the plaza this afternoon at 6 p. m. All Christian young people are invited to assist. Address to be given by Helle B. White. Everyone come.

tail of it foreshadows the work of Christ. 8 o'clock evangelistic service. Subject "The Three Great Judgment Thrones." Everybody welcome.

First Presbyterian Church. Sunday School at 9:30 a. m., J. P. Paisley, Supt. Preaching at 11 a. m. Subject, "The Lost Christ." Christian Endeavor at 7 p. m. Preaching at 8 p. m. Subject, "Reason Why Jesus Associates With Sinners."

Prayer Meeting Wednesday at 8 p. m. Subject, "Jesus and His Apostle Philip." Rom. 13:8 Jesus Christ, the Same Yesterday, Today and Forever. You are welcome! B. E. Wallace, Pastor.

Church of The Holy Cross. Sunday School will be held this morning at 9:45 a. m., in the new church building on South Church st. All teachers and scholars are urged to be present at that time as this is the first occasion on which our new building has been opened. Regular morning service at 11 a. m., will not be held.

Dr. Young, vice president of the Texas Woman's College at Ft. Worth, will preach both morning and evening at Centenary Methodist church today. The pastor, Rev. R. P. Shuler, is holding a revival meeting at Snyder and Dr. Young has consented to preach for him today. This will be a treat to the congregation and friends of the church and a large crowd should hear him.

DELIVERY OF GOODS

EXPENSIVE LUXURY

Miss Ida M. Tarbell lays the charge of intellectual shiftlessness at the door of the American housewife and points out that it costs her merchants \$75,000,000 a year to lug home her packages for her.

"The greatest immediate war benefit of curing this laziness in midlife," said Miss Tarbell today, "will be to release 1,000,000 able bodied delivery clerks as fighting men at the front."

Pausing just long enough to take a bit of the sting out of her charge by saying she believed all the American housewife needs to cure her is the government's suggestion, Miss Tarbell went on.

"The Commercial Economy Board of the Council of National Defense has discovered that the delivery of the housewife's goods is one of the most expensive luxuries we indulge."

"A world at war cannot tolerate sloth, waste and indulgence."

"On a food bill of twelve and three quarter million dollars in 1916, Washington housewives paid \$900,000 for having the stuff sent home. Ice, bread, milk and ice cream cost the most."

"What is true of Washington is true of every American city, town and village. The board estimates that the gross delivery expense of retail groceries in the country is \$75,000,000 a year. What for? For the hire of men to put up packages, run wagons and trucks, put your things at your door, not once, but often many times a day."

Housewives visit the stores in cars, carriages or on foot, but they never think of carrying home anything.

"The merchant is partly responsible. His willingness to serve her careless and irregular habits of buying is one way he builds up good will. The women have come to feel that if they carry bundles they will be classed as undesirable customers."

In our great cities the cost to the department store of delivering packages is from 8 to 25 cents apiece. It is not uncommon for the cost of delivering an article to exceed the cost of the article.

"There are a few towns in the country where the delivery evil has been stamped out. Ann Arbor, Michigan has had a sensible system such as we all need, for eight years. Formerly they used seventy wagons. Now they use only eighteen. There is but one delivery a day. Every woman knows what she wants and all that she wants and she gets it on the one delivery. All women could do this."

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, De.

Hall's Family Pills for constipation.

Knit For Our Defenders

The Lamar County Red Cross Chapter has been notified by the National Headquarters that it is expected to supply certain knitted articles for the Boys in France, and to do it AT ONCE. An appeal is made to everyone, whether members or not, to help in this work.

If you can knit, notify the Red Cross headquarters, corner South Main and Kaufman streets, and materials and instructions will be given you.

Do this now—delay means suffering for the men who are fighting for the liberties of our country and of your home as surely as if there was an enemy at our very doors, for if they do not fight—and win—he will be there and we will pay the price many times over.

Call the Red Cross Monday morning and tell them what you will do to help the need.

BASEMENT

Croquet Sets

Some Croquet Sets that remain from the season's selling will be offered at smart reductions to save packing them in the reserve store room until next summer. Buy now and have a set for the balance of this season or the beginning of next at a price.

4 ball plain set, regular \$1.00, for 85c
6-ball professional set, long-head mallets, finely finished, the regular \$2.50 set for \$1.50
Same in the 8-ball set, regular \$3.50, for \$2.00

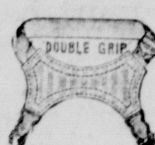

Tea Pots

Rockingham Tea Pots, plain and decorated, the genuine English ware that is the best made, several sizes.

\$1.00 to \$2.00

Crook-Record Co.

Green Stamps with All Cash Sales

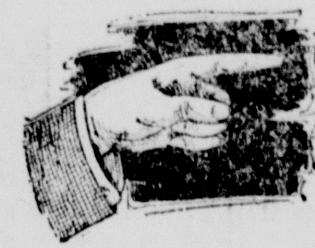

AUGUST DAYS

Are Interesting Buying Days

Besides the many opportunities to save money on Summer goods at the reduced prices, you are given the opportunity to see the new things for Fall and plan for the cool weather that is not far away. Every day now brings something for the new season and you will enjoy seeing these bright new things as they are unpacked and put on display.

Final Price On the SUMMER DRESSES

Of the white Voile and Net Dresses that we have been advertising for clearance the past two weeks we had on Saturday morning just nineteen left. They are the season's best dresses and are made in the smartest styles and of best materials. The original prices of those that are left ranged from \$17.50 to \$42.50. We offer choice of the lot until all are gone at

\$9.95

All-white Voile Dresses—White Voile Dresses with colored trimmings—Colored Voile Dresses

Three lots of these dresses, all neatly made and of excellent materials, underpriced to close at these figures—

Dresses That were \$5.00	Dresses That were \$6.50	Dresses That were \$10
\$1.98	\$2.98	\$5.00

Children's Muslin Drawers

Children's Muslin Drawers, every child needs such a lot of them in warm weather, and we are selling them for so little that to make them seems a waste of time and money. Plenty of them at Plain Tucked, sizes 2 to 12, at 10c
Tucked and Hemstitched, sizes 2 to 14, at 15c

Dollar Skirts and Waists

To spend a Dollar here for a white skirt or a waist is true economy for the values are so great that the price is no index. Wonderfully satisfying varieties of both these garments are offered at this small and popular price—only one dollar.

The Skirts are of good quality Pique, amply cut and well made, not the narrow, skimpy skirts that some stores call a dollar bargain, and all this season's styles.

The Waists are mostly the Wirthmore Waists, the greatest \$1 waist value the world ever saw, and the styles are renewed every week by fresh shipments of new patterns.

New Silk and Dress Goods

The new woollens have begun arriving and we are showing first a line of Serge Skirt patterns, the most beautiful plaids that were ever seen, 56 inches wide, sold only in skirt patterns

\$10.00 Each

Ottoman Cloth, a cotton fabric that is specially desirable for high school girls' dresses, very pretty line of colors, 36-inch width, a fabric that is not to be matched at the price—

50c Yard

The new Silks are here—taffetas in Roman stripes of such color gorgeousness they seem fairly alive. They are specially suitable for the new silk skirts and are 36 and 46 inch.

\$1.50 to \$5.00 Yard

New Satins in the correct shades for this season, richly finished fabrics that will respond to the draping that will characterize this winter's costumes, selling at

\$2.00, \$2.50 to \$3.50

Pumps and Slippers Special

Ladies' Summer Pumps and Slippers are all underpriced now to sell them while they can be worn. There is a distinct saving in each pair that we offer and every pair in the stock is included. These items will serve to show the reductions:

PATENT LEATHER PUMPS

Good styles, all sizes and widths in the better numbers, and patent leather only:

\$5.00 patent leather pumps.....	\$2.50
\$4 and \$3.50 patent leather pumps.....	\$2.00
\$2 and \$2.50 pumps, broken sizes.....	\$1.50

SOFT KID PUMPS

Bronze kid pump, plain pattern, \$6.00 value.....	\$3.00
Tan kid pump, plain pattern, \$6.50 value.....	\$3.25
Chocolate kid pump, plain pattern, \$5.00 value.....	\$2.50
Dull black kid beaded pump, \$7.00 value, at.....	\$5.85
Dull black kid beaded pump, \$5.50 value, at.....	\$4.00

Very fair run of sizes in these but not complete.

Return Goods Add to Cost. Repeated Deliveries Waste

You can help lower the cost of merchandise and allow more men liberty to serve the nation, just by being careful.

When you are a little careless in buying something,

when you really don't know whether it's just the thing you want or not,

when you have it sent home any way, and you leave it there for several days and then return it,

when you order something sent C. O. D. and refuse it, or when there is no one home to receive it,

when you have little packages delivered that you could just as conveniently carry,

when you have something sent home "Special" that really isn't so urgently needed,

—you multiply the cost of doing business just that much—and you and your neighbor pay for waste and you keep men doing needless work, delivering and coming back for goods not wanted, when they might be doing good, useful work that really counted for something.

So the Commercial Economy Board of the National Council of Defense has urged all merchants to tell their customers about this waste—that they may help reduce it so business can be done with less cost to the merchant and at less cost to the merchant's customers.

Confident, therefore, of your friendly co-operation in the spirit of patriotism, as well as because ultimately it will favorably affect you,

This Store Requests That Selections of Merchandise Be Made With the Intention of Keeping the Articles Purchased.

But when the goods must for some cause be returned for credit or exchange, please return them immediately—and carry small packages with you whenever possible.

(The rules governing the non-return of merchandise which cannot be taken back for sanitary or other reasons will, of course, continue in force as formerly.)

We do not mean that we are curtailing our facilities to accommodate our customers, and trying to shift to them some of the work that we ought to do, but we do believe that to follow the suggestions of the National Council will be to the benefit of each and every person in America.

MAXWELL

Most Miles
per Gallon

Most Miles
on Tires

The Maxwell is mechanically right.

All the world knows that today.

Why?

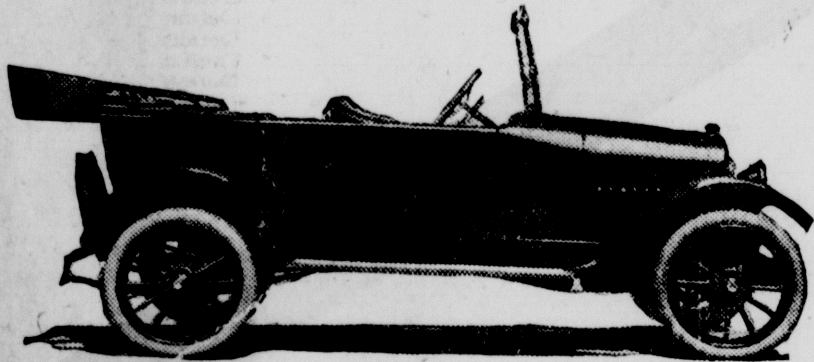

A Maxwell stock car went 22,022 miles without stopping the motor

—1092 Maxwells in our May gasoline economy contest averaged 27.15 miles on one gallon each.

2040 Maxwells in our June contest averaged 29.04 miles on one gallon each.

If the standardized, one model Maxwell were not mechanically right these achievements would have been impossible.

Isn't that the kind of efficiency—the kind of economy—you want in YOUR car?

relatives in Paris last week, left for New York accompanied by Mrs. Mamie Rodgers Baker, Mrs. Effie Rodgers Davis and Miss Virginia Baker. They will be gone several weeks.

Local News

A subscription list is being circulated by L. M. Arnold to raise money to build a holiness tabernacle near the crate factory.

While some farmers report a great deal of damage being done by boll worms, other farmers say they do not see any sign of them.

Two young men were arrested by Officer E. F. Harrell yesterday who were charged with engaging in a fight in the vicinity of the Paris & Mt. Pleasant depot Friday evening.

Mrs. Irvin Ward, the wife of a young blacksmith of Detroit who was accidentally shot in the breast by a young man friend of her husband at her home a week ago while he and another young man were visiting, is reported still alive and recovering, although the bullet entered close to the heart and passed through the small of her back.

Work on the new school building at Broadway is progressing nicely. It will cost \$3500 furnished.

Jno. S. Baker and family and W. T. Guthrie and family started to Mineral Wells in their automobiles yesterday morning to make a short stay, but when they got nearly to Brookston they found the roads so muddy and the weather so threatening they decided to return home and make the trip today on the train.

Only two marriage licenses were issued yesterday, both of which were to colored couples.

A long, lank spotted hound, which seemed to have been a stray, appeared suddenly at the northwest corner of the plaza a little before 10 o'clock yesterday morning and tore down Bonham street grabbing at every dog that came in its way, and bit scores of them. The police were notified and went in pursuit, but they were unable to run it down, although they made a diligent search.

Leslie Hopkins, who is a son of the late Squire J. F. Hopkins, justice of the peace in the Glory precinct a long time, joined the navy several months ago and is now stationed at San Francisco. He writes home that he has been advanced to second seaman.

A telephone message from Razor yesterday evening stated that the condition of Capt. J. D. Haynes was unchanged.

Camp Logan was almost deserted the greater part of yesterday, most of the members coming down town. Several of them live out of Paris and relatives came from a distance to see them.

H. L. Nelson, the member of Paris Battery from Mt. Pleasant who was operated on at the Sanitarium a few days ago for appendicitis, is reported to be getting along well.

The North Texas Rebekah and Odd Fellows convention was held at Cooper last Thursday with 176 delegates in attendance. Dinner and supper were served at the hall. The following officers were elected: Mrs. Ella Bruffett, president; Mrs. Jap King, vice president; Mrs. C. A. Martin, secretary. Paris was selected as the place of next meeting, which will be held in February.

Born to Mr. and Mrs. Frank W. Buchanan at Bourbon, Ky., Aug. 14, a boy, whom they named Clellan Lee. Mr. and Mrs. Buchanan spent the winter in Paris and made quite a number of friends here.

Dr. E. H. Stark has received notice that he will be called to active duty in the government medical corps about August 27th.

The veterans of the Civil War and the Sponsor Guards will present a couple of flags to the soldiers at Camp Logan at 7 o'clock next Tuesday evening. The veterans will present a service flag and the Sponsor Guards will present a silk flag to be used on dress parade. The public is invited to attend the presentation.

Harvey Bates, who lives a short distance out of town, said yesterday that his wife left a box of matches on the seat of a surrey in the shade last Thursday and that when the sun got to the surrey the heat caused the matches to ignite and burn up.

Carpenters began work yesterday on a two-room temporary building in the West Paris school grounds to relieve the crowded condition of the school.

J. W. Stell and J. N. Gurley, living southeast of town, attended the Farmers' Union state convention at Dallas in an automobile last week and were accompanied by Mr. Gurley's sister. They made the trip back home in the night and struck a blind road between Anna and Whitewright. Mr. Stell was doing the driving and had his nose severely skinned by running into some brush.

Two negro recruits were taken out to the county chain gang camp at Garrett's Bluff yesterday.

A large hay barn on J. K. Hunter's farm north of Maxey was set on fire by lightning before daylight Friday morning and was consumed. The loss on it is said to have been about \$2,000. It was not learned whether there was any insurance.

A dispatch in the Dallas News yesterday from Washington announced that six army lieutenant colonels from Texas were in the list of those who had been promoted to colonel, one of them being S. F. Bottoms of Paris. The News couldn't find anybody who remembered Col. Bottoms, and it is probably a mistake about his being from Paris.

A man whose name was not learned was killed by lightning in the railroad yards at Commerce yesterday morning.

Officers Billy Short and Luther Whitten went to Hugo yesterday as witnesses in an examining trial in the United States commissioners' court.

B. B. Baxter and wife, who live at Faulkner, left yesterday for Madill, Ok., to attend the funeral of their nephew, Albert Tippet, who was the son of J. M. Tippet. They received a message stating that he had been killed, but the particulars were not learned. The funeral will take place at Madill today.

Farm For Sale or Trade

64 acres of land, 4 miles east of Powderly on public road and R. F. D.; 12 acres in young orchard, about 10 in pasture, balance in cultivation. Will take one team and wagon in the trade. See or write me at Madill, Texas. J. W. Betterton.

If Your Eyes Need Attention

It should be the right kind of attention. Whiteside & Whiteside are capable of giving you the right glasses to correct whatever error or defect you may have. A trial will convince you of their superior ability. Office 302 First Natl. Bank Phone 519.

Card of Thanks

To our many friends and acquaintances we wish to extend our grateful thanks for their kindness and sympathy shown during our recent bereavement, the death of Mrs. O. W. Grigsby. Especially do we thank those whose sympathy was so tenderly expressed in song.

O. W. Grigsby,
Mr. and Mrs. P. C. Waits
and family.

Misses Bess and Margaret Harris entertained Wednesday afternoon and night with a watermelon and slumber party honoring their guest, Miss Nora Weaver of Cooper. Twenty girls, chaperoned by Misses Dudley and Stannard, were driven in an automobile truck six miles in the country where they enjoyed ice cold melons. The party returned at eleven o'clock and eight of them spent the night at the Harris home. Every moment was filled with fun. A midnight lunch was served. After breakfast they departed hoping Miss Weaver would visit Paris again soon.—Reported.

WAS ADMITTED TO BAIL ON MURDER CHARGE

District Judge A. P. Dohoney was engaged yesterday in hearing a habeas corpus proceeding at Paris, which was presented to him by attorneys from Hunt county, wherein the defendant was charged with murder and he had been denied the privilege of making bail by the justice of the peace before whom the preliminary examination was held. The applicant for the writ of habeas corpus was Lowry Glasco and he was charged with the murder of Gene Keith, an ex-city marshal of Celeste, at which place the killing occurred, the victim's head having been nearly severed from the body with a pocket-knife.

A relative of the defendant had been arrested on two criminal charges and the defendant claimed

that the deceased was instrumental in having him arrested. One of the charges was very sensational and was the cause of Sheriff L. T. Akers of Greenville making a trip to Paris to investigate it. At the hearing of the habeas corpus the defendant was placed on the witness stand, and also the city marshal of Celeste. At the conclusion of the hearing the court allowed the defendant to make bail in the sum of \$7,500. He was carried back to Greenville on the afternoon train and expected to make the bond right away.

The defendant is an ex-deputy sheriff and constable and is said to stand well among his acquaintances. The attorneys in the case who represented the prosecution at the habeas corpus hearing before Judge Dohoney were District Attorney Sam D. Stinson and Clyde Sweeton, former assistant attorney-general. The defendant was represented by Mayo Neyland, ex-district attorney, and Wad Thompson, ex-county attorney of Hunt county.

THROWN FROM BUGGY ACROSS HOOD OF AUTO

Mrs. Hewgley, the wife of a member of the Paris Battery, was painfully injured Friday night between 8 and 9 o'clock in an accident which occurred while she was riding in a buggy with her husband at the corner of Lamar avenue and Thirtieth street. They were going east and just as they reached the corner of Thirtieth street and started to turn south some out of town people came along in an automobile and turned into the same street headed in the same direction.

The result was that the buggy was struck with such force that one of the front wheels was smashed and Mrs. Hewgley was thrown out and fell on the front of the automobile, the engine of which was exposed without the hood. A gash was inflicted on the side of her face near the temple and a hand and arm were burned by the exposed engine. Another automobile happened along just after the accident occurred and carried her home. While her injuries were very painful they were not serious. Her husband and brother-in-law were not hurt.

OCCUPANTS OF AN AUTO HAVE A NARROW ESCAPE

While J. H. Bills and S. M. Moore of Reno were coming to town yesterday morning in Mr. Bills' automobile they had a narrow escape from being killed by coming in contact with a streetcar at the corner of Thirtieth and Pine Bluff streets. The parties in the automobile were in the act of turning into Pine Bluff while the motorman was headed east. Mr. Bills, who was driving the automobile, miscalculated the speed of the streetcar and thought he could cross the track into Pine Bluff ahead of it, but realizing later that he couldn't get across in time he stopped with the intention of backing, but the auto went a little too far across, and before it could be backed the streetcar bore down on it and struck it in front with such force that it changed ends. The occupants sat still in their machine and were not knocked out and neither of them was hurt. The automobile was considerably damaged and the steering-gear was deranged, although the engine was not put out of commission.

CATTLE ARE DYING FOR WANT OF GRASS

R. T. Davis of Reeves county, a former resident of Lamar county, who left here for the west part of the state forty-three years ago, is back on a visit and spent yesterday in Paris. He has been back a few times since he left, but he met a number of old acquaintances yesterday whom he had not seen during the forty-three years that he has been away. Mr. Davis said they hadn't had any grass in Reeves county in two years and that cattle were dying. He said there was an irrigated district on Toyah creek on which alfalfa was raised, but that the crop was about exhausted. Cattle are being fed on cottonseed cake that costs \$50 per ton.

NEGRO WOMEN HAVE A BLOODY ENCOUNTER

A bloody fight occurred late yesterday evening in Beckley ranch between two negro women, one of whom was named Harris and the other Floyd. Jealousy over a negro man is said to have been the cause. During the fight it is said the Floyd woman started toward the other with a pocketknife and the latter came back at her with a hoe and knocked the knife out of her hand. After it fell on the ground the Harris woman threw down the hoe and picked the knife up and attacked the Floyd woman with it, cutting her in several places. The muscle of an arm was nearly severed and she stabbed her two or three times around the shoulder and collar bone. The women finally clinched and went down on the ground together. Other negro women in the ranch tried to separate them, but failed and they fought until they became exhausted. Officer Jack Carter, who was not on duty, heard the negro women screaming from his home and he went to the place and arrested the Harris woman and turned her over to the

county. The other woman was too badly wounded to be locked up. Sheriff Clarkson went to the place after the difficulty and made an investigation.

SOLDIERS TREATED TO WATERMELON FEAST

A train of soldiers made up of thirteen coaches and one boxcar, who were from Illinois, arrived in Paris a little after 11 o'clock yesterday morning headed for Houston, where they were to go into camp for training. A part of them belonged to an engineering corps and a part of them to the artillery. They presented a fine picture of health and all of them appeared to be in the best of spirits. They remained here about two hours waiting for arrangements to be made to go out, and while waiting they marched down town, lining up on the plaza. They kept step like veterans and were much admired.

Shortly after they made their appearance and were lining up on the west side of the plaza the five banks of the city got busy. They went out and bought three wagon loads of the finest watermelons that could be found on the market and treated the soldiers to a feast, using the benches on three sides of the temporary bank building on which to cut them. Mr. Steinheimer, the photographer, had the soldiers who were on the east side to stand up, each holding a slice of melon in his hand, while a picture was taken.

The soldiers appeared to greatly appreciate the courtesy and hospitality extended them and sang an improvised song in which they said they would never forget Paris.

NATIONAL CONVENTION A GREAT SUCCESS

The Paris delegation attending the National Convention of the Lake to Coast Scenic Highway Association, held Thursday and Friday at Tallihina, Okla., returned Friday night and report a most successful and enthusiastic gathering of delegates from Illinois, Missouri, Arkansas, Oklahoma and Texas.

The delegates attending the convention were welcomed by Governor R. L. Williams of Oklahoma and among the responses were: George W. Briggs, representing Galveston and A. W. Ringland, representing Chicago.

Great enthusiasm prevailed throughout the meeting and much success attended the session. Officers elected for the permanent organization of the Lake to Coast Scenic Highway were as follows: E. C. Bracken, President, Paris; H. K. Albers, Vice President, Ft. Smith; J. H. Cruthis, Secretary, Tallihina, and T. E. McGee, Treasurer, Paris.

Four directors of each state represented were elected an each board entered enthusiastically upon their work of furthering the interest of the highway in their respective states.

The first of this state activities will be in the form of a state convention of the Lake to Coast Scenic Highway Association, which will be held at Daingerfield, September 27, at which time the route across Texas will be considered.

We pay the highest cash price for used furniture of every sort and invite you to call on us on Grand avenue.

D. H. Baker Furn. Co.

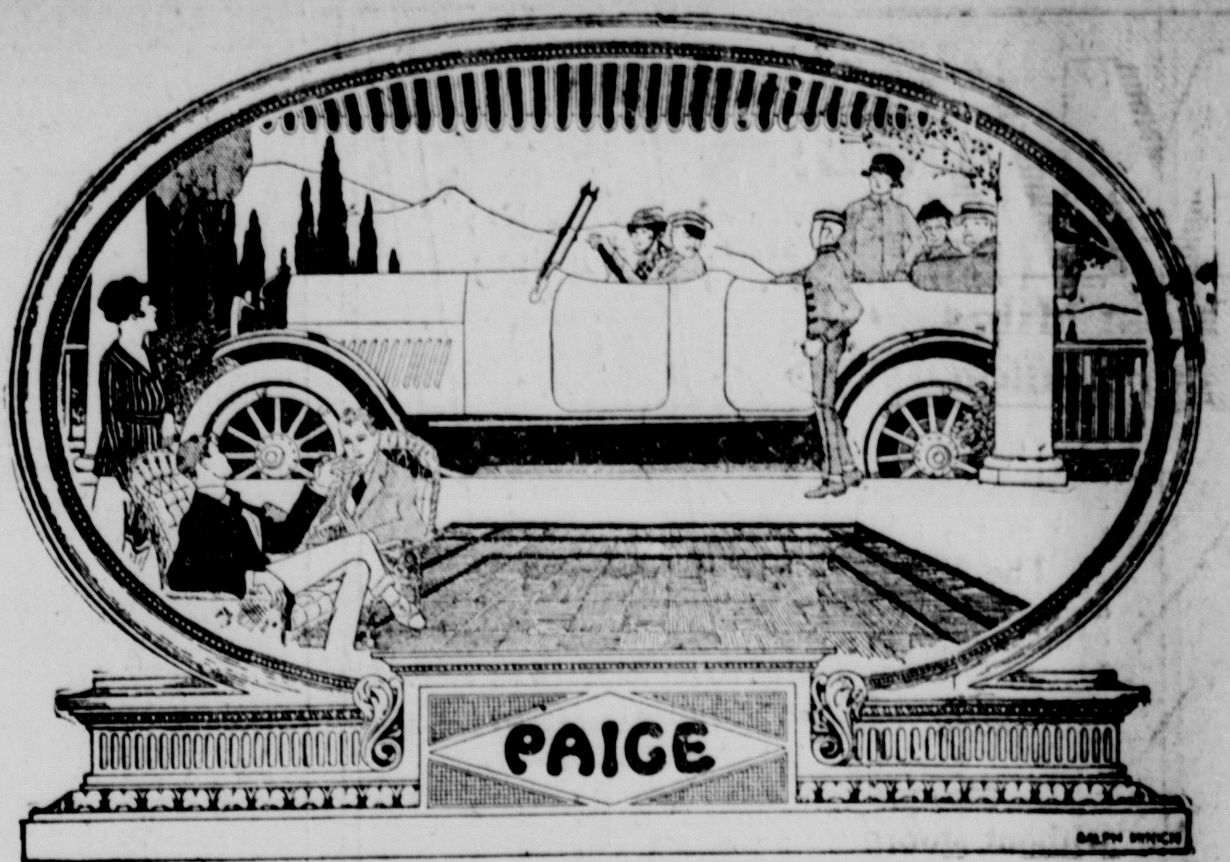

Called Meeting.

There will be special called meeting of the Girls' National Honor Guard Monday evening at 6 o'clock, in the basement of the Central Presbyterian church. It is essential that every guard girl be present, as there will be a discussion of the arrangements for the following evening; the presentation of the fountain pens to the Battery boys will be at Camp Logan, the same time that they will be given their comfort kits and their flag. Therefore, every girl is most urgently requested to come, and notify as many others as she can.

Civil Service examinations Paris soon. Men and women desiring government clerkships, departmental, postoffice, railway mail, customs, stenographer, write for free particulars to J. C. Leonard, 281 Kenos Bldg., Washington.

Take a 3-burner oil stove for \$5 and you'll have a bargain.

The Most Beautiful Car in America

Twenty thousand Paige volunteer salesmen joined the Paige organization during the last season.

Every purchaser of a Paige car immediately becomes a willing and enthusiastic "booster."

That is one of the principal reasons why Paige cars are easy to sell and it also proves that the Paige stays sold.

These 20,000 volunteer salesmen have been a big factor in creating the Paige waiting lists that are growing steadily throughout the country.

The nation-wide enthusiasm for the Paige is inspired by the mechanical excellence of The Most Beautiful Car in America, its reliability, its durability, its economy of operation—its supreme quality.

Book of Mixed Feeds

FREE!

Useful to every owner of dairy cows, beef cattle, work oxen, horses and mules

TELLS you how to prepare mixed feed scientifically. Gives the right formula for every combination of feeds used in the South. Tells the percentage of protein and carbohydrates. Directs what amount of each mixture to feed for maintenance, for milk production, for fattening and for work.

This book also contains an interesting chapter on

Shows why these delinted hulls have greater forage value than the old style hulls, why they allow better assimilation of food, why they go farther, why they take less space for storage, why they are easy to handle, why they mix well with other food, why cattle relish them, why they cost much less than old style hulls and why thousands of feeders are enthusiastic about them. The mixed feed formulas show how to combine Buckeye Hulls properly with concentrates and other feeds.

Mr. W. B. Lifford, Troy, Ala., prefers Buckeye Hulls to old style hulls. He says that they are less trouble to feed, are better for the digestive organs and seem to agree with the cows better.

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

The foregoing 119 names are of persons who did not appear for examination, or who filed claims for exemption which they did not complete, or who filed and completed claims which were disallowed. With the 98 reported heretofore who filed no claims for exemption, this District now has certified 217, or seven less than the required number. Calls for an additional 200 men for examination August 23d and 24th have been sent out.

SANITARY NOTICE

People who have not paid their sanitary bills for the third quarter, beginning in July, had better do so, as arrests are being made as fast as the bills are turned in to us. Thirty were made yesterday and if you would save trouble and costs you had best comply with the law.

All weeds on all premises and in front of premises must be cut at once. This is fair warning.

John Howerton, City Marshal.

A 6-cap range with reservoir and warming closet for only \$15. That's an example of our bargain giving in house furnishings.

W. E. Knight Furn Co.

Sanitary Fines

Those who have neglected to pay their Sanitary Bills for Third Quarter, July 1st, will be prosecuted and have to pay Bill, Fine and Costs. Complaints are now being made.

Have you paid yours?

John Howerton, City Marshal.

NOTICE TO AUTOISTS

Until state numbers are obtained by auto owners the county number plate must be shown at all times, and must not be covered by a card stating that application has been made for a state number. The law is plain and will be enforced. I hope all interested will govern themselves accordingly.

Respectfully,
John Howerton,
City Marshal of Paris.

NEW DRESSES, WAISTS, COATS, ETC.

This week we will show you some of the Newest Creations in Ladies' Garments for Fall Season—also recent Millinery models of grace and distinction. The New Silks also invite your attention. Come for a look throughout the entire store—it will do you good.

LOSING OUR LEGS?

SCIENTIST SAYS SO, BUT GLADYS SAYS NO

New York, Aug. 17.—Are the legs of Americans degenerating? Will the race resemble penguins in a few generations because of lack of leg exercise, induced by using automobiles and street cars?

Yes! says P. A. Vail, writing in Popular Science Monthly, after a careful study of American legs. Vail says the American woman has neglected herself so long her legs and feet are suffering malformations.

"Nonsense!" is the comment of Gladys Loftus, Broadway dancer in the Ziegfield Follies company, reputed to have the most perfect legs on the stage today.

"Vail's conclusion that lack of exercise is causing degeneration in the American woman's feet and legs is absurd," she declares. "Exercise or lack of exercise has nothing to do with beauty of line in the human figure. The Chinese women have been binding their feet for centuries. But a Chinese girl, brought up in this country, whose feet are not bound in infancy, has just as perfect feet as any other girl."

"A father or mother whose leg has been amputated certainly will not have a child with a malformed leg. You could cut off a leg from each parent through hundreds of

generations without affecting the offspring.

"Beauty of line, in leg, arm, neck or face, arouses admiration, because there is implanted in human nature a love of the beautiful, and the human figure, especially the female figure, contains the lines that especially appeal. Artists prefer to work from the nude because the beauty of line and coloring of the female body is unsurpassed."

"Because of this, men will always seek as mates beautiful women; just as women will tend to select mates who are strong and manly. In this way, by a process of natural selection, the race will always tend toward the strong and beautiful."

"Those who mate, therefore, are more likely to improve the race from the standpoint of beauty and strength than otherwise."

"So long as men admire beauty of form in women, there is no danger of degeneration of women's legs, arms, or body."

I've a new line of Soap, Extracts, Toilet Goods, Perfumes, etc., for agents. 100 per cent profit. Sample free. Write quick. Lacassan Co., Dept. 57, St. Louis, Mo.

A GRADUATE NURSE

Why She Recommends Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I was in poor health for two years, caused by a displacement, and during six months of this time was under a doctor's care without getting any help. I decided to try Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I am entirely relieved of the displacement and periodic pains, and am now the mother of a beautiful healthy baby. I am a graduate nurse and will be glad to recommend Lydia E. Pinkham's Vegetable Compound to other women."—Mrs. R. W. SLOAN, 6225 So. Park Avenue, Chicago, Ill.

There are many women who suffer as Mrs. Sloan did and who are being benefited by this great medicine every day. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration.

If you need special advice write Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.

We SAW WOOD

Foster's Weather

Washington, D. C., Aug. 18.—Last bulletin gave forecast of disturbance to cross continent August 18 to 22, warm wave 17 to 21, cool wave 20 to 24. This will bring dangerous storms on land and water; probably tornadoes in the central valleys and hurricanes on our southern seas. Heavy rains in northern sections and drought in more southern parts of the continent are expected. Bad time for sea, lake and ocean voyages. Don't forget the time, the week centering on Aug. 20. Watch for that great and dangerous storm.

Next warm wave will reach Vancouver about August 23 and temperatures will rise on all the Pacific slope. It will cross coast of the Rockies by close of Aug. 24, plains sections 25, mountain 90, great lakes and Ohio valleys 26, eastern sections 27, reaching vicinity of Newfoundland near Aug. 28. Storm wave will follow about one day behind warm wave and cool wave about one day behind storm wave.

This will not be so great a storm as the preceding but should be watched as it may be dangerous in some places. Temperatures of the preceding storm will average below normal, while the storm will tend to higher temperatures that will reach very high degrees about last of August.

Crop weather for winter grain promises good, following Aug. 20, and it will have a vigorous growth, make good pastures and enter the winter in good condition. This has but little to do with the question as to a good winter, grain yield for 1918. Blue grass fall pastures of 1917 promise good. This and winter grain pastures are important to the livestock industry.

Killing frosts are indicated for some northern states not far from September 20 and the silos should be filled before those frosts get the green stuff. In middle latitudes the killing frosts will come near Oct. 4 near latitude 40. Near latitude 25 we expect the killing frosts near Nov. 1. Whoever hopes to succeed in farming must provide good silos and save green stuff, for winter feeding, that would otherwise be lost. By adopting all the best methods of intensive farming the agricultural pursuits will become the best business one can pursue.

The world war makes the United States and Canada the grainery, gardens and flesh pots of the world and these will continue. The next move will be to clear up our swamp lands as old Egypt was compelled to do. The Japanese gardeners on the Pacific slope are teaching us some valuable lessons about the swamp lands as garden spots. The swamp lands of the Mississippi valleys, with the intensive farming of the old Babylonians, would feed this country. With improved irrigation our plains sections east of the Rockies would feed Europe.

Norman descendants are the lawgivers of the civilized world. In England they wrote Magna Charta; coming here they wrote the Declaration of Independence and established the true democracy, constituting Liberty enlightening the world; then they produced the new American race. A smaller element, the Saxons, came to us and became a part of the new race. They are the captains of industry and therefore America is the treasure house of the world.

IN this picture the camera shows Mlle. Alice Verlet, of the Paris Opera, probably the world's greatest coloratura soprano, singing in direct comparison with the New Edison's Re-Creation of her glorious voice. Mlle. Verlet has many times made this test in public and it is the unanimous verdict of the thousands who heard her that her beautiful voice and the New Edison's Re-Creation of it are so exactly alike that the ear cannot detect one from the other.

The New EDISON

"The Phonograph
With A Soul"

The New Edison gives absolute realism—the literal Re-Creation of music. Thirty different great artists, many of them members of the Metropolitan Opera Company of New York, and none of them imitators or impersonators, have proved by direct comparison that an artist's voice or instrumental performance cannot be distinguished from the New Edison's Re-Creation of it.

THERE IS STILL ANOTHER TEST

Numerous artists whose voices have been Re-Created by Mr. Edison are also making talking machine records. We should be glad to give you the names of these artists. When you have the opportunity, ask a talking machine dealer to play for you some talking machine records by these artists. After you have heard their talking machine records, please come to our store and give us the opportunity to play Edison Re-Creations of the voices of the same artists.

Don't listen to a talking machine in our store and don't listen to the New Edison in a talk-

ing machine dealer's store. However, if you would like to hear the New Edison in direct comparison with a talking machine, get the talking machine dealer to deliver one of his talking machine at your home. We will gladly deliver at your home, without cost or obligation, an Official Laboratory Model of the New Edison. Then, you and your family, playing talking machine records of an artist's voice, in comparison with Edison Re-Creations of the same artist's voice by the New Edison, will be able to realize just what the difference is between the New Edison and a talking machine.

NOTICE—Please do not ask us to sell you Edison Re-Creations if you intend to attempt to play them on a talking machine. Edison Re-Creations were meant to be played only on the New Edison.

SANITARY NOTICE

People who have not paid their sanitary bills for the third quarter, beginning in July, had better do so, as arrests are being made as fast as the bills are turned in to us. Thirty were made yesterday and if you would save trouble and costs you had best comply with the law.

All weeds on all premises and in front of premises must be cut at once. This is fair warning.

John Howerton,
City Marshal.

Sanitary Fines

Those who have neglected to pay their Sanitary Bills for Third Quarter, July 1st, will be prosecuted and have to pay Bill, Fine and Costs. Complaints are now being made.

Have you paid yours?

John Howerton, City Marshal.

NOTICE TO AUTOISTS

Until state numbers are obtained by auto owners the county number plate must be shown at all times, and must not be covered by a card stating that application has been made for a state number. The law is plain and will be enforced. I hope all interested will govern themselves accordingly.

Respectfully,
John Howerton,
City Marshal of Paris.

NEW DRESSES, WAISTS, COATS, ETC.

This week we will show you some of the Newest Creations in Ladies' Garments for Fall Season—also recent Millinery models of grace and distinction. The New Silks also invite your attention. Come for a look throughout the entire store—it will do you good.

HANDSOME NEW DRESSES

We have received a specially select line of New Wool and Silk Dresses—the styles are the most attractive which have come in this season and we want you to see them—a color range that will afford easy selection—the prices are right—

\$9.95 to \$22.50

BIG LINE CHOICE WAISTS

We have them of Crepe de Chine, Georgette and Novelty Voiles and Organdy, a broad assortment and each one a gem in simplicity of style, yet elegant in individuality. Select your waist here and it will be right—the price range—

\$2.45, \$3.95, \$4.95, \$5.95

BIG SELECTION OF FANCY SILKS

Yes, one of the very most complete stocks of NEW SILKS in Paris, has been assembled here for your inspection and it's up to you to come and see the magnificent showing—stripes, plaids and shadow effects, in great variety—best ever at, yard

\$1.50, \$1.95, \$2.25, \$2.45

COATS—YES, NEW COATS

Fine grade Coats for the Fall Season have been coming in during the past week and while it is rather early, yet a few are asking about them. Come and see the beauties we offer at

\$25.00, \$35.00, \$45.00, \$65.00

SPECIAL SALE TOWELS

Special Table of extra large Turkish Towels, worth to 90c the pair, various kinds in the lot; some colored, some all white; all go at a uniform price—the pair

50c

NEW FALL HATS ARE HERE

Lot Ladies' New Fall Hats have arrived and in fact we have already sold quite a number of them. Come for a look here this week.

LOSING OUR LEGS?

SCIENTIST SAYS SO, BUT GLADYS SAYS NO

New York, Aug. 17.—Are the legs of Americans degenerating? Will the race resemble penguins in a few generations because of lack of leg exercise, induced by using automobiles and street cars?

Yes! says P. A. Vail, writing in Popular Science Monthly, after a careful study of American legs. Vail says the American woman has neglected herself so long her legs and feet are suffering malformations.

"Nonsense!" is the comment of Gladys Loftus, Broadway dancer in the Ziegfeld Follies company, reputed to have the most perfect legs on the stage today.

"Vail's conclusion that lack of exercise is causing degeneration in the American woman's feet and legs is absurd," she declares. "Exercise or lack of exercise has nothing to do with beauty of line in the human figure. The Chinese women have been binding their feet for centuries, but a Chinese girl, brought up in this country, whose feet are not bound in infancy, has just as perfect feet as any other girl."

"A father or mother whose leg has been amputated certainly will not have a child with a malformed leg. You could cut off a leg from each parent through hundreds of

generations without affecting the offspring.

"Beauty of line, in leg, arm, neck or face, arouses admiration, because there is implanted in human nature a love of the beautiful, and the human figure, especially the female figure, contains the lines that especially appeal. Artists prefer to work from the nude because the beauty of line and coloring of the female body is unsurpassed."

"Because of this, men will always seek as mates beautiful women; just as women will tend to select mates who are strong and manly. In this way, by a process of natural selection, the race will always tend toward the strong and beautiful."

"Those who mate, therefore, are more likely to improve the race from the standpoint of beauty and strength than otherwise."

"So long as men admire beauty of form in women, there is no danger of degeneration of women's legs, arms, or body."

I've a new line of Soap, Extracts, Toilet Goods, Perfumes, etc., for agents. 100 per cent profit. Sample free. Write quick. Lacassian Co., Dept. 57, St. Louis, Mo.

A GRADUATE NURSE

Why She Recommends Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I was in poor health for two years, caused by a displacement, and during six months of this time was under a doctor's care without getting any help. I decided to try Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I am entirely relieved of the displacement and periodic pains, and am now the mother of a beautiful healthy baby. I am a graduate nurse and will be glad to recommend Lydia E. Pinkham's Vegetable Compound to other women."—Mrs. R. W. Sloan, 6228 So. Park Avenue, Chicago, Ill.

There are many women who suffer as Mrs. Sloan did and who are being benefited by this great medicine every day. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration.

If you need special advice write Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.

We SAW WOOD and let our ice do the talking for us. And we have found the plan works wonderfully well. Stop in and see what you think about it. The kind of ice and pricing that have pleased so many keen shoppers should certainly appeal to you.

FOR SALE

One nice young Jersey cow. Also have a very fine Jersey heifer calf six weeks old. Must sell at once. Ring 1152.

Foster's Weather

Washington, D. C., Aug. 18.—Last bulletin gave forecasts of disturbance to cross continent August 18 to 22, warm wave 17 to 21, cool wave 20 to 24. This will bring dangerous storms on land and water; probably tornadoes in the central valleys and hurricanes on our southern seas. Heavy rains in northern sections and drought in more southern parts of the continent are expected. Bad time for sea, lake and ocean voyages. Don't forget the time, the week centering on Aug. 20. Watch for that great and dangerous storm.

Next warm wave will reach Vancouver about August 23 and temperatures will rise on all the Pacific slope. It will cross crest of the Rockies by close of Aug. 24, plains sections 25, mountain 30, great lakes and Ohio valleys 26, eastern sections 27, reaching vicinity of Newfoundland near Aug. 28. Storm wave will follow about one day behind warm wave and cool wave about one day behind storm wave.

This will not be so great a storm as the preceding but should be watched as it may be dangerous in some places. Temperatures of the preceding storm will average below normal, while the storm will tend to higher temperatures that will reach very high degrees about last of August.

Crop weather for winter grain promises good, following Aug. 20, and it will have a vigorous growth, make good pastures and enter the winter in good condition. This has but little to do with the question as to a good winter grain yield for 1918. Blue grass fall pastures of 1917 promise good. This and winter grain pastures are important to the livestock industry.

Killing frosts are indicated for some northern states not far from September 20 and the silos should be filled before those frosts get the green stuff. In middle latitudes the killing frosts will come near Oct. 4 near latitude 40. Near latitude 25 we expect the killing frosts near Nov. 1. Whoever hopes to succeed in farming must provide good silos and save green stuff, for winter feeding, that would otherwise be lost. By adopting all the best methods of intensive farming the agricultural pursuits will become the best business one can pursue.

The world war makes the United States and Canada the grainery, gardens and flesh pots of the world and these will continue. The next move will be to clear up our swamp lands as old Egypt was compelled to do. The Japanese gardeners on the Pacific slope are teaching us some valuable lessons about the swamp lands as garden spots. The swamp lands of the Mississippi valleys, with the intensive farming of the old Babylonians, would feed this country. With improved irrigation our plains sections east of the Rockies would feed Europe.

Norman descendants are the lawgivers of the civilized world. In England they wrote Magna Charta; coming here they wrote the Declaration of Independence and established the true democracy, constituting Liberty enlightening the world; then they produced the new American race. A smaller element, the Saxons, came to us and became a part of the new race. They are the captains of industry and therefore America is the treasure house of the world.

IN this picture the camera shows Mlle. Alice Verlet, of the Paris Opera, probably the world's greatest coloratura soprano, singing in direct comparison with the New Edison's Re-Creation of her glorious voice. Mlle. Verlet has many times made this test in public and it is the unanimous verdict of the thousands who heard her that her beautiful voice and the New Edison's Re-Creation of it are so exactly alike that the ear cannot detect one from the other.

The New EDISON

"The Phonograph
With A Soul"

The New Edison gives absolute realism—the literal Re-Creation of music. Thirty different great artists, many of them members of the Metropolitan Opera Company of New York, and none of them imitators or impersonators, have proved by direct comparison that an artist's voice or instrumental performance cannot be distinguished from the New Edison's Re-Creation of it.

THERE IS STILL ANOTHER TEST

Numerous artists whose voices have been Re-Created by Mr. Edison are also making talking machine records. We should be glad to give you the names of these artists. When you have the opportunity, ask a talking machine dealer to play for you some talking machine records by these artists. After you have heard their talking machine records, please come to our store and give us the opportunity to play Edison Re-Creations of the voices of the same artists.

Don't listen to a talking machine in our store and don't listen to the New Edison in a talk-

ing machine dealer's store. However, if you would like to hear the New Edison in direct comparison with a talking machine, get the talking machine dealer to deliver one of his talking machines at your home. We will gladly deliver at your home, without cost or obligation, an Official Laboratory Model of the New Edison. Then, you and your family, playing talking machine records of an artist's voice, in comparison with Edison Re-Creations of the same artist's voice by the New Edison, will be able to realize just what the difference is between the New Edison and a talking machine.

NOTICE—Please do not ask us to sell you Edison Re-Creations if you intend to attempt to play them on a talking machine. Edison Re-Creations were meant to be played only on the New Edison.

"Licensed Edison Dealers."

MONEY IN BUNCHES

Have just returned from a three weeks vacation and have loads of money to loan on farm and city property, allowing the lowest rate of interest and the best options ever offered in Lamar county. Call and see me.

P. J. PIERCE.

Fifth Floor First Natl. Bank Bldg.

Room and Board

One nicely furnished upstairs room for rent to couple. Apply Lytton house, 105 Clarksville, or ring 1411.

None Adm. And Receipts Collected

People of Paris and Lamar County

Beware of Traveling Fakers here today and gone tomorrow calling themselves Optical Specialists, making false promises to return and getting your money for worthless trash which injures your eyes.

Take This Tip

If you need glasses you need the right kind and had better get them from people at home whom you know and who are able to determine the condition and fit you with first class goods and service at much less cost than the Traveling Fakers will with his trash.

Whiteside & Whiteside, Optometrists & Opticians. Phone 519. 302 First Natl Bank

SOUND ADVICE

The people of today are inflicting grave injury upon their eyesight because they do not understand it until too late. Neglect is robbing many persons of good vision. Eyesight changes constantly but so slowly that it is not until the harm is done that suspicion is aroused. Only a few minutes' time spent in my office will determine this and if I recommend glasses I will prove to you why they are necessary.

Hamp Sanders, Northwest Corner of Plaza.

Old reliable Peacemaker Flour is back on the market. Pete Humphries Co.
